

February 2022

Minuit Une is hiring a product support lighting operator.

Company description

Minuit Une develops, designs, and manufactures innovative lighting solutions dedicated to giving smaller productions the magnitude and emotions of big arena lighting experiences: the IVL Lighting range. The IVL luminaires developed and made in France by Minuit Une are available in more than 30 countries worldwide, thanks to a powerful distribution network (Europe, Asia, America).

Job description

You will be dedicated to the support of the IVL customers with various missions and in direct contact with lighting operators and designers from around the world as an IVL instructor. You will be part of a young, dynamic, and enthusiastic team, working under the direction of the technical operations manager and in a close collaboration with the sales team.

Your principal missions will be:

- Providing product training and demonstrations.
- Providing technical support for end-customers.
- On-site operations (Lighting console programming, support, counselling).
- Creating resources, show files, lighting designs and previsualization projects.
- Managing the showroom.

Candidate profile

- Skills in communication, listening, collaboration, adaptability, empathy and patience.
- Will to learn and transmit knowledge.
- Multi-tasking
- A high level of English language – Full professional working proficiency.
- Experiences in the stage lighting sphere and the world of live events
- Proficiency in at least one lighting control system (GrandMA2, GrandMA3, Avolites, Chamsys and/or HOG).
- Knowledge in at least one previsualization software (WYSIWYG or equivalent).
- Basic knowledge of office softwares.
- Driving license – Category B.
- A second foreign language will be much appreciated (not necessarily French).

Permanent position (CDI) :

- Salary based on experience
